EXPERIENCE

A Plus Solution

Present

Web And .NET Developer Intern

- Resolved a critical website cache bug causing stale CSS/JS to load; implemented cache-busting strategy eliminating manual browser clearing.
- Developed and deployed two WordPress websites (*Spectaroma, LotusGlobal*) including theme customization and plugin configuration.

TailTrips App

Freelance, 2025

Flutter Developer

- Built a full-featured hotel & villa booking app from scratch using **Flutter** and **Firebase Firestore**, handling real-time property availability.
- Implemented property listing pages, advanced search filters, image sliders, and a complete end-to-end booking flow UI.
- Integrated Firebase Authentication for user sign-in and Firestore for live data synchronization across sessions.

PROJECTS

Railway Reservation System

PHP, MySQL, HTML, CSS, Bootstrap

- Developed a web-based ticket booking and reservation management system with route search and seat availability modules.
- Designed booking history tracking and admin panel for reservation management.
- Integrated **Cashfree Payment Gateway** for secure online ticket payment processing.

Cloud ToDo App

AWS Lambda, API Gateway, DynamoDB, Node.js

- Built a fully serverless task management app with REST API via API Gateway routing requests to Lambda functions backed by DynamoDB.
- Achieved near-zero idle cost with on-demand Lambda scaling and IAM-role-based access control.
